WORK EXPERIENCE

• GST (Global Solutions Team)

FEB 2024 - PRESENT

UX/UI Designer

- Revamped the end-to-end ticketmaster Travel booking experience, contributing to a 5–7% increase in monthly hotel revenue.
- Led the design system for SSR and SDK solutions, ensuring alignment with each tenant's brand identity.
- Led the end-to-end design of self-service hotel management flows for ticketmaster Travel, streamlining post-booking management and reducing reliance on customer support.
- Optimized and scaled white-label loyalty point redemption experiences across multiple enterprise tenants, tailoring interfaces to each brand while reducing user drop-offs and supporting a launch expected to reach 200K+ visitors.
- Designed email marketing templates and hotel and ticket promotional campaigns for Ticketmaster fans, collaborating with the Marketing Director and launching campaigns through Mailchimp.

• Insured Connect

Mar 2025 - Feb 2026

Lead UX/UI Designer (Part-Time)

- Designed and delivered end-to-end experiences for the NIC Policy Owner Platform, enabling policyholders to manage insurance plans and communicate with assigned agents while enhancing accessibility, usability, and overall user engagement.

• Happy.Ai

JUL 2023 - SEP 2023

UX/UI Design Intern

- Enhanced the user flow for assigning grant-related work to team members, reducing clicks and simplifying navigation.
- Presented design explorations and proposed solutions during design reviews, collaborating with cross-functional teams to refine product experiences.

• Rain or Shine

JUL 2023 - SEP 2023

UX/UI Designer / Graphic Designer

- Designed responsive website layouts tailored to client needs, creating UI components within an established design system and delivering high-fidelity designs and final assets to developers.
- Developed and refined responsive layouts using HTML and CSS, ensuring consistent performance and compatibility across devices.

EDUCATION

• Humber College

JAN 2022 - SEP 2023

Multimedia Design and Development

- Applied user research to solve complex problems, leading to solutions.
- Iteratively improved products and identified key problem areas.
- Contributed to redesign efforts across multiple platforms, enhancing user flow and optimizing visual hierarchy.

• Suwon Women's University

JAN 2013 - SEP 2016

Fashion Design

- Hand-sketched initial design and iterated them physically.
- Researched customers and tested fabric materials based on research.
- Learned how to structure clothes properly and apply creative thinking and ideas to clothes.
